UF INTERNATIONAL

Our Services

Our customers are always our priority, and we aim to make your experience working with us as enjoyable as possible. As such, we offer a variety of services:

Brand Distribution

We partner with brand owners to build and distribute their brands into selected markets around the globe. Each brand is managed individually and carefully positioned in the appropriate market sector. To ensure we keep up to date with the latest trends, our experienced sales and marketing team travels overseas several times a year, and also carries out regular consumer insight research.

Whether you own a domestic business and want to take your products overseas, or are already involved in international markets and want to reach new destinations, we will be there every step of the way.

Private Label

Creating your own private label has never been easier!

As a recognised and trusted food importer and exporter, we know the industry like the back of our hand and, as such, we can help you with the development of your brand. Whatever your requirements are, our in-house private label and design team is here to help you achieve your goals.

As part of our service, we will manage your project from beginning to end, taking care of all the - sometimes nitty-gritty - details, and keeping you informed every step of the way. We can also provide you with product specification sheets, certificates, as well as arrange for technical audits and quality compliance for export markets.

From conceptualisation to launch (and even after), you can rest assured that your product is in safe hands.

Our Services

Our customers are always our priority, and we aim to make your experience working with us as enjoyable as possible. As such, we offer a variety of services:

Wholesale Division

Within our wholesale division, we offer one-stop shop service to our customers.

- **Volume Trade and Consolidation Service**: Partnering with large buying groups and leading manufacturers enables us to offer over 20,000 lines, including mainstream and speciality lines (such as gluten-free) at a competitive rate.

- **LCL Service:** We are the first UK exporter to offer LCL sea shipment for both Ambient and Frozen food. This allows you to try out products before committing to buying large quantities.

- **Logistics:** Our ambient warehouse is conveniently located 30 mins away from Southampton port, whilst our frozen warehouse is in Felixstowe. Our in-house logistics team has a combined 80 years experience in this industry and can offer you stock management, warehousing, labelling, container loading, as well as road, sea or air shipment service. Whether you need goods at a port or to your door, we make sure your consignment reaches you anywhere in the world.

- **Labels & Pallets:** We have a re-labelling and re-palletisation service to ensure all your requirements are met.

- **Documentation:** Our team is on hand to help you with export/import documents such as Certificates of Origin, Bills of Lading, Free Sale and more.

  We are members of the DIT and Thames Valley Chamber of Commerce, and work closely with other country-specific organisations to ensure the information we provide you with is the most up-to-date.
